Harbourview **Fixed Indexed Annuity**

What is a Fixed Indexed Annuity?

A fixed indexed annuity is a long-term retirement product that provides principal protection, offers tax-deferred growth on assets, and a reliable income stream that is supported by the financial strength of the issuing insurance company. Throughout the life of the contract, the fixed indexed annuity can increase in value based on the growth of a variety of selected indices over a predefined crediting period.

Your contract value is not directly invested into the stock market, removing the risk of direct investments in stocks.

A fixed indexed annuity cannot lose money due to market volatility and the interest credited will never be less than zero.

The Oceanview Life Advantage

Rated "A-" Excellent by A.M. Best

*Surrender Charges may vary by state.

Death Benefit Contract Value (No MVA or surrender charges) or Spousal Continuation

Market Value Adjustment (Not Applicable in CA) A Market Value Adjustment (MVA) applies to all withdrawals subject to Surrender Charges. The MVA may have the effect of increasing or decreasing the Surrender Value of the withdrawal depending on market interest rates. The Product Disclosure provided to you at the time of the application has additional details regarding the MVA.

Settlement Options Life Only; Life with 10-Year Period Certain; Joint and Last Survivor with 10-Year Period Certain (If Annuitized).

Accessing Your Money

Free Withdrawals

Each year after the first contract year, clients may withdraw up to 10% of their contract value (as of the most recent contract anniversary) to provide income.

Minimum withdrawal amount = \$250. Free withdrawals will not be subject to surrender charges or market value adjustments.

Required Minimum Distributions

Required minimum distributions (RMDs) are mandatory withdrawals from qualified contracts. Recently enacted federal legislation increases the required beginning age for those born on or after July 1, 1949, to age 72. If you were born before July 1, 1949, your required beginning age for taking RMDs remains age 70 ½. RMDs can begin after year one and are considered a free withdrawal, even if they exceed 10% of the contract value.

Settlement Options

Create an income stream for a term of your choosing. Once you elect to receive a guaranteed income stream, the payment schedule and amount cannot be changed.

Life Only

Equal monthly payments for the annuitant's remaining lifetime. Payments will end with the payment due just before the annuitant's death.

Life with 10 Year Period Certain

Equal monthly payments for the greater of 120 months (10 years) or the annuitant's remaining lifetime.

Joint and Last Survivor

This option provides payments during the lifetime of the annuitant and the lifetime of a designated second person. If at the death of the survivor, annuity payments have been made for less than 120 monthly periods, the remaining guaranteed annuity payments will be continued to the beneficiary.

Death Benefit

A death benefit is payable to the annuity's beneficiary, if the owner, or the annuitant if the owner is a non-natural person, dies before the annuity payments begin. The amount payable is equal to the contract value determined as of the date of death. The death benefit will not be subject to a Market Value Adjustment or Surrender Charges.

Spousal Continuation

This option allows one spouse to continue the other's contract as the new annuitant. In the event of the death of one spouse, contracts that are jointly owned by spouses or a single-owner contract with a sole spouse beneficiary allow the surviving spouse to assume all rights to the initial agreement. They will have the ability to elect to continue the contract, collect any remaining and all payments and any death benefits and choose beneficiaries, subject to certain conditions. This provision allows for the surviving spouse to maintain a tax-deferred status and secure long-term financial stability.
